Nature Trail Around Hostětín

čp. 86

Hostětín , 68771

Length: 6 km

The Nature and Walking Trail Around Hostětín is a trail through the local countryside, where an imaginary local “guide” will tell you how people used to live, work and celebrate holidays. It recalls, for example, how they used to bring wood from the forest or how children used to spend their time. Learn what the locals used to grow and what kinds of snacks they used to bring to the fields. For example, do you know what duck soap is?

What could be made from fruit and how much of it was there? Read who the castrators were, and how the local dialect differs from standard Czech.
