## Strážnice Château and Château Park

**Zámek 672**

**Strážnice, 696 62**

The Strážnice chateau, surrounded by a vast park, is the centrepiece of the town of Strážnice. However, it did not acquire its present-day neo-Renaissance form with classical elements until the mid-19th century. For the public, there are two permanent sightseeing tours with the historical library and the newly opened chateau chapel with its extremely precious altar. You can see exhibitions of paintings, puppets the “Folk Dress in Moravia” 3D exhibition or the unique “Musical Instruments in Folk Culture”. You can see more about the chateau and current exhibitions [HERE](#).
