

LOCAL PRODUCTS, CRAFTS**Traditional Product of Moravian Slovakia****Masarykovo náměstí 21****Uherské Hradiště, 68601**

A sales exhibition where you can find traditional products from local producers who have the Traditional Product of Moravian Slovakia label. This mark guarantees, above all, precise handicraft work, the product's link to Moravian Slovakia and the tradition of production with an environmentally friendly approach. The project was established in 2008 and currently brings together more than 80 producers from all over Moravian Slovakia. Manufacturers and their products must meet the strict evaluation criteria set out in the conditions for awarding this mark. Amongst the products you can find Tuplesy ceramics, corn husk dolls, wirework products, indigo blue-dyed products and more. By buying the product, you will support local producers and, at the same time, bring back more than just a nice impression from your trip or holiday, but also a high-quality, original gift from Moravian Slovakia.
